

SECRET

OFFICE OF THE LEGISLATIVE COUNSEL

Tuesday - 27 March 1960

1. [redacted] telephoned saying he had not gotten a clear report in order to advise us how we should handle the query from Jay Bourwine requesting a copy of the intelligence report mentioned in the NEW YORK TIMES of 27 March. He had an indication that this matter had been discussed by State with Mr. Amory and that certain arrangements were made there. He requested I let him know if I found out.

Subsequently, I talked with Amory who said that this was not an intelligence report but the reference was to an analysis which the Department of State had prepared and that any inquiries from the Hill should be referred to the Department. Amory stated he had asked that this information be forwarded to us but we had not received it.
